To whom it may concern

I am 22 years old and I have been a sannyasin since little more than one year.

I came to know Bhagwan Shree Rajneesh through His disciples, in the center 'Miasto Rajneesh' in Italy and for the course of my life this continuous relation with Bhagwan, His words, His image, have been the most provoking elements, were what pushed me to "struggle with joy" for to live and to be myself.

I saw Bhagwan in persona in Oregon, and since then this contact has become more alive.

In my things, in my daily life, in the work, which is not always easy, the Master is a continuous source of trust and energy.

Yours sincerely

Ma Chetan Arya
