To whom it may concern

I am here in Rajneeshpuram and for me it is incredible to be here, to experience everything that is going on here.

And it is a lot going on.

For the Second Annual World Celebration thousands of disciples of Bhagwan Shree Rajneesh from all over the world have come to this beautiful place to enjoy His presence. And for all of them has been taken care immensely.

I cannot imagine any other festival in the world with such a lot of people happening in such a joyful and peaceful way.

I want to talk to you about the Satsangs, the high points of the festival.

Satsang means being with the master,
communicating with him in silence.

Sitting there, in Buddha Hall, a huge
wonderful white building, surrounded
by the mountains, with thousands
of happy sannyasins, feeling
his presence, his love, his joy -
there is nothing alike. -

So much has changed here since
last year. New houses, shops, restaurants,
roads, gardens - an airport ... it is amazing.
Everything that is happening here
in Rajneeshpuram has a taste of beauty
of grace. People working together in
love, in harmony, because of his presence,
you can feel an atmosphere of
aliveness, laughter, an immense
energy in the work, just a flavour
of paradise.

So for me it's something I've never seen
before and I feel immensely thankful
to see him here.

I really want him to stay at such
an extraordinary place so that
many other people can enjoy him and
this commune.

downing
