To whom it may concern

After leaving the high school and an education over 3 years at a bank, I had my first contact with Bhagwan Shree Rajneesh in doing a meditation.

Now I'm worshipping in a center of Bhagwan in my home-town.

I just came back from Rajneeshpuram where I stay more than 3 months. Now while I'm back I really feel the difference from living in a buddhaheld in the presence of Bhagwan. I really miss him and his daily drive through the ranch.

For me it's not necessary to speak with him, just looking in his eyes fills me up with such a lot of love and satisfaction.

I still can feel it here in Germany. He give me so much energy to bring all his love into my center and my Samnyas-family.

I was really sad when I heard that the American INS
tried to bring him out of the country.
He is my beloved master and I feel very helpless.
That's why I write this letter to you that you
remind that Bhagwan Shree Rajneesh is an enlightened
master and a religious teacher for thousands of people
in the world. To teach all this people to make
this world a little bit more lovely and worth living.

Yours faithfully
Andrea June
