

Arnhem, August 2nd 1983.

To whom it may concern,

Hereby I'd like to draw your attention to the refusal of the stay in the United States of America of Bhagwan Shree Rajneesh.

I don't want to argue with you about this refusal. I just want to try to show you why it so important that Bhagwan should be able to share His religious teachings in the country of His choise.

To me, the best way of doing this is by explaining what He as a master means to me.

I'm now almost two years a sannyasin, one of His followers. In these two years of spiritual search I've changed alot. From a person that was always trying to change the world exopt from himself by fighting everyting that he thought was wrong, I've grown through the understanding of myself that Bhagwan gave me, to a person that fixes his eyes nolonger upon negativity but only spends his energy upon positive things in society and tries to support them. From a politically left-wing-teenager^y became a positive person.

This transformation happened even when my master was thousands of miles away from me, physically. I've seen Him twice only. But that doesn't seem to affect my in-creasing love for Him.

I hope I made you understand a bit why it would be so beautifull if Bhagwan was given the opportunity to share His teachings. To my opinion, America would profit enor-mously of His legalised stay.

Sincerely Yours,

Dhyana Govind
