

Amsterdam, 4-8-63

To whom it may concern:-

Bhagwan means very much for me and that is why I want to ask you that he may stay in the United States.

He is very important in my life since I started to read his books 6 years ago, I felt I did my job in a psychiatric clinic better since I started to meditate and did the specific Bhagwan-meditations.

My feeling is that he is a living Jesus-Christ although he does not speak at the moment.

Last month I was in Oregon to attend the festival there and I felt joyful there and I admired the positivity and the hard-work of the peaceful community of disciples of Bhagwan.

At the moment I live in a Bhagwan-Community in Amsterdam and I work in the kitchen, there I feel the warmth and love with which everybody here works and worships; I feel sure that this all was not possible without Bhagwan's guidance and love.

Summarized, he is very important for me
and I hope that he is recognised in the
United States as a man with
outstanding qualities - for whole the world

Sincerely yours
T. M. Booms
