To Whom it may concern,

My name is Swami Satya Naresh. I would like to explain how Bhagwan Shree Rajneesh has created such a change in my life. The way I relate with others and myself. Since Bhagwan has been around me so much enjoyment of life is happening! I am learning how to simply enjoy life. With his presence here in the U.S.A. so many people are worshipping together, with so much love and consideration, everyone helps each other to accomplish the work from sewing to heavy machinery we all cooperate. It is because of his presence that this beautiful city is born! When I became aware of Bhagwan I did meditations for some time. Now, I can really feel the great change in awareness through the worship and meditation in the presence of Bhagwan. His presence, when he drives by, and in satsangs somehow is the greatest learning experience I have ever known.

Bhagwan's understanding of man and his problems is much greater than anything available in any universities in the world. For the United States to have such an extraordinary man as Bhagwan Shree Rajneesh in the country will be a great asset economically and to the general welfare of the country. For the well being of the people in the U.S. His presence has such an effect, one needs to see what is going on at Rajneeshpuram, just to feel the energy of the "Buddhafield"!

I graduated from high school in San Antonio, Texas, continuing my education traveling through the South Pacific and Australia. I have worked with drafting, house framing, finishing, landscaping, greenhouses, nurseries, and restaurants. For the last I have been reading the discourses of Bhagwan Shree Rajneesh.

Thank you very much

Swami Satya Naresh
