

July, 10th, 1983

To show it may concern:

For 6 years I'm a teacher in Tai Chi and martial arts. I started with the famous Chinese master Yin Fu Feng.

Because of many beautiful books coming out in Germany of Bhagwan Shree Rajneesh and programs and courses at the Rajneesh University, I decided to participate in the Tai Chi course to find out more about Tai Chi and this spiritual master, a human being of immense intelligence, clarity and wisdom.

I'm amazed about the ways of teaching Tai Chi in Rajneeshpuram.

It gave me a deep insight of all the principles, I never experienced before and it changed my attitude towards my work as a teacher now in a more centered and balanced way in moving in Tai Chi.

I'm looking forward to start this amazing
experience with my dollar.

Only through the presence of this religious
master this place is transformed.

Even in his silence now his teachings are
coming through his disciples.

His presence gives me incredible joy and energy
to move on.

And whatever I see here coming through
his disciples in worshipping and creating
a beautiful space is just inspired
through this living master.

Sincerely yours,

Marianne Bogumil
