

to whom it may concern ... !

Barbara HEKK
Hamburgerstr. 19
5000 KÖLN 1
West-Germany

I studied art and pedagogic and now I am a teacher for children between 10 and 16 years. During the time I studied I came in contact with Bhagwan Shree Rajuresh, I read a lot of his books, listened to the taped discourses and saw videos about Bhagwan. I was impressed ~~at~~ ^{by} his clear view about life. I was especially interested in themes about children, family, education and so on because I wanted to work with children.

It was - like Bhagwan opened my eyes, everything I saw with a different eyes point of view now and it helped me a lot to understand life in itself. I am together with a lot of people and I enjoy it, its not just my profession in order to get money for it, but I really enjoy it to be with children, its no more "work" for me. And all this is because Bhagwan helped me, he showed me the right way to live life and to enjoy it.

And my process of growing is not yet finished, as the Festival in Rajureshpuram shows me, even if the Master doesn't speak anymore. It's just his presence, the heart to heart communion that helps me to learn a lot about myself and others. I'll take back my experiences to Germany and use it in my work there.

Yours sincerely
