To whom it may concern  
love

I am a disciple of Bhagwan Stee Rajneesh.  
I have also studied Hotelmanagement and language  
and toured the world for 10 years as a Tour-  
guide. All my life I have been looking for  
a place on this earth, where people of different  
colours and creed would live together in harmony.

I was very blessed, to one day meet Bhagwan  
In the Poona days, during morning lectures, he would  
share his vision of the 'new man'. Living and acting  
in a totally unknown way. - Now Bhagwan stopped  
talking, in this silence this new experiment is becoming  
true. It is a gift to be here and to work in his  
presence. Work has really become worship, and just  
to see him drive by, once a day, is enough.

His being here, changes the quality of the whole place  
Every one of us, feels their potentials manifest to a  
maximum and creative way. This dry, barren piece  
of land is slowly turning into a green Oasis. This  
land which was almost useless, now feeds thousands

Any country in this world is privileged  
to open its doors to such a renown and influential  
person like Bhagwan - Thousands come from every  
corner of this planet - just to be with him.

Through the flow of visitors and because of the city growing around Bhagwan, millions of Dollars are poured into the country's economy.

Please come and see this beautiful place. The only place where deep harmony exists between nature and man and where love connects everyone in an amazing way.

America - the US - has always been known as 'the place', where justice and freedom prevails. Please remember the foundation that your forefathers set and judge truly according to your high standards.

With love
