Rajneeshpuram 97741  
Oregon.

I came to know of Bhagwan Shree Rajneesh through my daughter who has been a follower of his for some years. I have read many books & listened to many tapes of his & I became more & more impressed that here was someone quite exceptional in his knowledge - through personal experience & awareness - of psychology & science & above all of the Arts & Music which are my particular field (I have been a member of the Philharmonia Chorus of London for many years). I decided finally that I must come & witness for myself this extraordinary person whose name & reputation as a great Master had spread throughout the world. I arrived & my expectations were more than fulfilled. I am 72 years

old, a mother of four children & grandmother  
of five, & as such, look upon him as some-  
one who understands mankind & children in  
particular more than anyone else I have ever  
come across. Should his permit be cancelled  
the U.S. will lose a very great human  
being.

To quote Bhagwan on my favourite of  
the Arts: "Music has to be in your heart,  
your heart, your very being has to be musical,  
it has become a harmony. A man can exist  
as a chaos or as a cosmos. Music is the way  
from chaos to cosmos."

Yours sincerely

Joyce Brandt
