Re: Bhagwan Shree Rajneesh

I am a social worker in this department and also the co-editor of a number of publications in the field of social services. I have been a disciple of Bhagwan's for a number of years and have used many of his techniques and teachings in my therapeutic work. His influence has been a positive asset to my ability as a social worker and a benefit to our local community.

As a social worker in the business of dealing with a wide range of people from all social backgrounds, Bhagwan Shree Rajneesh stands out as the most sophisticated and exceptional person I have come to meet. He has made an outstanding contribution to society in bringing together the best of both East and West into one harmonious worldview including personal growth through to wider issues such as ecology and economics. His intelligence and sensitivity make for a religious teacher who is without question of exceptional standing and ability.

Yours faithfully,
