

San Mateo, Calif.
July 17, 1983

Dear Sir,
Concerning the deportation
of Russ Rajmood:

My daughter Colleen has
been in Oregon for more than
a year now. She has sent me
pictures and letters about the
city she is helping to build
called Rajmoodpocam.

It is an incredible city
and I think Rajmood must
be an exceptional human
being. To inspire these young
intelligent people (most of them
college graduates like her) to
pioneer here and create a
living, caring environment
out of a wilderness!

I have been told that our
government is thinking of
deporting him because of his new
pioneer, but as a U.S.
citizen I feel that his influence
for good on our young people
speaks volumes!

Our generation (60 yrs) was
taught, and I have shared in
my life, actions and words
speak much louder than words.

Take any FDP Democrat! We
were also a "doer" and our Count
needs more not less of these people!

Please have the people with
the power reconsider what his
deportation would mean?

Yours for more caring and
less crime,
L

Mrs. A. V. Lavin
