

210A WEAPONESS ROAD,  
WEMBLEY DOWNS,  
W.A. 6019.

To whom it may concern,

17 - July - 1983

My name is Roy William Townsend, a 54 year old Englishman who immigrated to Australia in November 1970. I commenced employment with Mental Health Services, a Western Australian Government department on 26 November 1973 as a student mental health nurse becoming state registered after three years training and have remained in continuous employment with that department. For the past three years I've worked as a community care nurse.

I find Bhagwan's teaching exceptional in the field of psychiatry and psychology and helps me in my relationship with my patients, colleagues and personal life.

I first heard Bhagwan's teaching while attending an awareness group in November 1980. While not a sannyasin I continue to read his books, watch video tapes and listen to cassette tapes of his discourses.

Bhagwan Shree Rajneesh is internationally recognised as an exceptional spiritual teacher/leader and I request that he be granted the right to permanent residence in the U.S.A.

Yours faithfully,

Roy Townsend.
