To whom it may concern,  
I am writing this letter because of  
my concern over the visa application of  
Bhagwan Shree Rajneesh.

I studied Psychology in France  
for a few years and got a "D.E.U.G"  
Diplôme d'études Universitaires Générales.

For three years, I worked with children  
who were psychologically, affectively disturbed.  
Later, I came to participate with doctors  
in a psychiatric institution in the research  
of the best treatment for psychotic patients.

In an attempt to be more efficient  
in my work, I did different exploration  
through arts, paintings, theater, dancing and  
therapy, Freud-analysis... Three years ago,  
when, for the first time, I met Bhagwan  
through one of his books, it was sudden  
a revelation, not on a metaphysical or

Philosophical point of view, but rather  
a so clear answer to our Reality,  
responding to people's psychological  
suffering.

I found his teachings valuable  
for he personally but also for anybody  
all over the world because he is not  
speaking to a certain type of people, race  
religion or category but to the same HA  
which is inside each of us, with identical  
desire, identical problems.

The personal changes resulting from  
my study of Bhagwan's teachings, and the  
general applications of his writings and  
methods make my own work much more  
satisfying and fulfilling.

I work, actually, as a French  
teacher in a Bilingual, experimental school  
in San Francisco. And in my new work, I  
use Bhagwan's teachings to bridge alive,  
attractive, playful the psychological space  
where the students have to learn a new  
language, specially for American little children

Each day, it's going deeper in the  
understanding of our so-called problems,  
and feeling the beauty to be alive.

I urge you to grant this man  
his petition as not doing it would  
be a great loss to this country and  
to the world.

Sincerely

Sw. Heberich
