

July, 25th 1951

To whom it may concern.

As a Secretary of a general manager of a sub-division company of Detaset International B.C. a supplier of graphic supplies and fine arts throughout the whole world. I am writing to you to state how much influence the teachings of my Beloved Master, Bhagwan Shree Rajneesh has and still is giving me day by day.

I got to know about Him via a famous Dutch psychiatrist Jan Fontaine.

After reading a few books of Bhagwan Shree Rajneesh what meant for me finally finding someone who tells truth in a very clear for everyone understandable way, I wanted to meet Him and became a disciple in Poona, India in February. Ever since life has changed incredible for me. It has its effect not only privately, but also socially and in my work.

This appeals not only for me but also for some friends I know who work in different fields like medicine, arts and sciences. I've seen them growing and expanding their being as well as their knowledge once they got in contact with

the teachings of Bhagwan Shree Rajneesh.
To me He is someone with a very rare,
exceptional quality, a quality of which I
only can have a taste of and for me actual
impossible to describe with ordinary words.
One just has to open a book and read a
few pages to see whenever He talks about
a subject in whatever field, scientifically,
practically or psychologically, it is of extreme
clarity and knowledge.

The presence of a religious leader, He is more
than that, is of tremendous value, not only
for His disciples but for any country where
He is, actually for the whole mankind.
