

to whom it may concern

My name is Frank Bielig and I am a German physician since 1977. I have been ^{working} especially with drug addicts, mentally and neurologically disturbed persons beside the usual patients. My special interest has always been the psychodynamic of sickening processes and illnesses as well as addictionary diseases. Therefore I have been studying all the important modern literature about psychosomatic medicine and many psychological books.

Yet, I have never found any more profound and more subtle knowledge of the whole interrelating of biological, psychological and spiritual processes than I came across in the discourses and books of Bhagwan Shree Rajmash combined with the capacity to make those processes clear and understandable. Nowhere I could find such deep insight made so easy to be understood.

This man is an incomparable genius who is not only able to show the mechanism of our diseases but also to indicate the way out and help everybody to understand and accept himself. This man functions as a catalytic agent for the only really healing force which is love. ~~and~~

And he is the only human being on the earth right now who is able to prove the capacity to love in human being on such a large scale that may be the catastrophe that human mankind is running into at the moment may be prevented.

I hope that more and more people will come to this understanding.

I myself am a disciple of Bhagwan Shree Rajneesh since August 1977. Being with him has helped me tremendously to love and to accept myself as well as other human being.
