

To whom it may concern

Since 1975, we run a beauty shop and institute in Hamburg, West Germany. We also produce a line of herbal organic cosmetics and beauty products and manufacture our own Perfume ("Astroscope").

We first heard of Bhagwan Shree Rajneesh in 1977, and subsequently started reading his books.

We feel, that he not only is one of the greatest philosophers of today, in his books he often touches subjects of science. His knowledge of the human body and nature helped us develop advanced massage techniques, which our staff uses successfully in our institute.

Furhtermore, the growth of our own line of body treatments and perfumes would not have been possible with his invaluable information regarding the human senses and perceptive system.

We highly appreciate the work that is continued now in Rajneesh-puram, Oregon. We think that it is one of the most advanced and fascinating projects of the society today and we are happy that the United States, this land of liberty, is giving Bhagwan Shree Rajneesh the possibility to continue his work.

Yours truly,

(Willi Boelcke, Manager)
