TO WHOM IT MAY CONCERN!

In 1980 I read my first book by Bhagwan Shree Rajneesh. I was deeply impressed about his comments concerning human psychology and relationships. I started meditating guided by His meditation techniques and became his disciple in 1981. I had never seen him in person by then. But I never doubted that Bhagwan was a human being of extremely high intelligence, wisdom and spiritual radiance.

I shall never forget the moment when I saw him for the first time in Rajneeshpuram during the Second Annual World Celebration. Until then I had been trying to understand his teachings from his books and tapes and getting many answers in that way. But the essential I only understood when I was sitting in his presence, in deep, silent communion with him.

I am working in fashion and therefore the following comparison came up for me: it is like the difference between looking at a dress or wearing it. The essential experience is 'wearing it'.

The United States must grant this exceptional teacher a residential permit!
