## To Whom it may concern

I am writing to express my concern at the way the authorities are dealing & delaying with the visa application of Bhagwan Shree Rajneesh.

Who am I? I am a follower & devotee of Bhagwan Shree Rajneesh and his teachings.

I was born in England - completed the education system there - studied art for 4 yrs & received a B.A. Hons deg. in Fine Arts. For several years I worked as a potter & lived in an artisan community of painters - poets & craftsmen, many now internationally known in their chosen field. I have travelled extensively in Europe & the East & my personal contact with Bhagwan began when I was on a cultural trip to India in 1978, while studying the sculptural statues in Khajuraho I met an American who was a Methodist minister &

and lover of Bhagwan Shree Rajneesh. He introduced me to Bhagwan and his teachings and from that time my awareness & love of life is constantly expanding. From an artists view Bhagwan Shree Rajneesh is the Supreme Master of Arts. continually bringing one to new dimensions of seeing. listening to his discourses in India heightened ones sensory perception and unfolded the mystery of life - his vision is beyond description - why persecute him for this? I have listened to his taped discourses in many homes of friends in Europe & America - they are not Rajneeshes but intelligent & professional people who understand & love what Bhagwan has to say without prejudice.

Yes. I am here to live my life - I eventually fell in love with my American friend - I chose and have been chosen to live in this new vision country. Why not to same choice for Bhagwan Shri Rajneesh who is the most remarkable man of all time. He has chosen to bring his immense vision and love of

man kind to this new age Country - a country  
of wide horizons. He is bringing love and  
awareness to us - we no longer have to go  
out and seek.

Why not give Bhagwan Shri Rajneesh

His freedom to Be - in doing this you  
you will be liberating everyone

sincerely - a lover of life
