To whom it may concern,

Living in amsterdam in a Bhagwan Shree Rajneeshashram, I am a sannyasin, one of Bhagwans discipels. I am living here with my two sons, because this is a beautiful place to live, a magnificent place for children to grow-up.

Again this year, when we visiked our Master in Rajneeshpuram, Oregon, I felt how strong he inspires me and the people around me. It is such a new thing to have learned, and to learn everyday again, to say yes to life! He showed me how to give a special taste to everything I do: ~~to~~ being a receptionist, ~~to~~ cleaning floors, ~~to~~ the way I am with my children.

I worked for years in many different situations as a teacher, but nowhere did I find work so enjoyable.

and being with people so light,
so full of love. For me work
is changing into worship.

And I see that His message is
spreading around!

yours sincerely,
